

Butler County Progressive PAC (BCP-PAC)

Membership Application Form 2020

I support the following principles of the Butler County Progressive PAC:

- We believe that it is necessary to 1) create a world of individual and collective security and 2) address the root causes of the problems we face.
- We believe that individuals have a fundamental right to live in a world of social, political, environmental, and economic justice.
- We embrace diversity as central to strong communities, and we celebrate difference as central to building a sense of shared community.
- We believe that in a just and democratic society, all citizens and groups should have access to those individuals and groups responsible for policy-making.
- Within the context of a shared common good, we support the right of self-determination of all people.
- Because our actions affect future generations, we strive to act responsibly and to enjoy, protect, and sustain a world rich in cultures and resources.
- We believe in continuing self-examination in order to make our actions consistent with our progressive political philosophy.
- While we think globally, we will act primarily locally.
